

MOTHER'S HIP

MOTHER'S HIP was founded in spring 2008 by Lord Martin

The Lord always wanted to cover the music of one of his favorite bands and he was looking for the matching musicians for his project. With MFKowiak he had already found a guitar-player and H.P. had confirmed his coming after his contribute in a session-band. Only the drummer wasn't found. But the acquaintance to a guitar-player from a close band Lord Martin inspired in February 2008 also their drummer Boon for his project.

Fast - only after 3 rehearsals - the band developed a one-hour program. As opener for the "Rock & Bike" in Hünxe Mother's Hip presented the program first time to a larger community. The success competed that only one week later two more locations offered open mikes.

In the meantime the four musicians completed many gigs and they adopted numerous titles from different styles in addition to the Led Zeppelin program.

Beside the 2 ½-hour Led Zeppelin program the four musicians also have the opportunity to access a program for 2 ½-hour from other styles.
